

# For Sale By Private Treaty

## Offers are Invited

**By order of the Directors, Amco Agency offer for sale Laminating, Lever Arch File and Binder Manufacturing Equipment**

**Click thumbs for larger images (opens in new window)**

[Click Here for PDF Asset List](#)

Following a decision to use production facilities overseas the following equipment is available for disposal. The majority of this equipment is still connected and being used for a smaller scale of production.

Some of the equipment will be decommissioned shortly and will be moved in order to liberate the space for storage. Most of the equipment can be made available to a buyer at short notice. It is intended to clear the factory totally by late June.

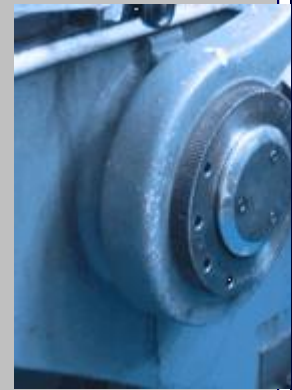

We have described the equipment and advised where there are know faults. Some of the equipment requires servicing prior to commissioning in the main this is restricted to air seals.. Buyers are responsible for assessing the equipment as it is sold without warranty.

The equipment will be moved by the buyer at his own expense using suitably insured and experienced crews.

Removal must be timely and by a date agreed at the time of purchase. We can advise a mover that we have used before if required.

**Offers for both machines as one lot please**

Kiefel 20000 Sb 20kw inline HF welding machine 1000 x 800mm heated head.  
1972.

Heater Fault no RF at head, possible generator down. Non Operational.

Kiefel 20000 Sb 20kw inline HF welding machine 1000 x 800mm heated head.

1972.

AAC / RF power issue, Partially Operational. Pneumatics require refurbishment.

NB We consider it is in a prospective buyers best interest to purchase these two machines as one lot. However we may consider splitting them.

Photo 1101 3 station 10kW rotary air welding machine 600 x 600mm heated

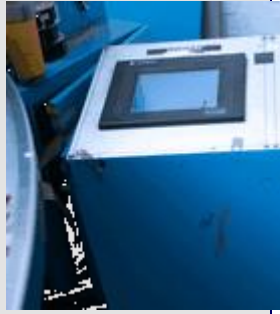

head.

1998 Operational.

Abel 10kw 4 station rotary welding machine 760 x 500mm heated head.

Rebuilt mid 90's. Operational.
